

## **To the sign language interpreters associations of the nordic countries**

Today we see a lack of additional courses for sign language interpreters throughout the nordic countries. It is the aim of the nordic SLI associations to help and encourage our respective institutions to offer these courses in cooperation with each other.

We see the importance of further training in order to keep developing the profession. To achieve this we are forming a working group with two representatives from each country. Every participating association will recruit these two persons. Ideally one interpreter and one from the field of education.

Looking forward to hearing from you,

The representatives from Nordic Meeting 2015
